The Ultimate in beautiful masking.

Specialist tapes for the automotive professional.

Ultimate Foam Masking Tape

Ultimate masking for paint and lacquer.

A unique, adjustable and efficient way to mask cars for paint and lacquer.

- For use in all apertures, A, B & C Posts.
- Precise fingertip adjustment.
- Removes post spraying rub down.
- Can be used on moving parts.
- One continuous length.
- More absorbant.

Part number	Size	Units
77 11 433 736	20mm x 50m	1

Ultimate Soft Edge Foam

The original foam masking for door apertures.

A simple way to mask your car and protect the interior. A clean removal adhesive allows vehicles to be masked and left overnight before spraying. Reduces levels of hardpaint edges seen when using paper masking products.

- Foam masking for door gaps
- Available in 13mm & 19 mm
- Suitable for most gaps
- Supplied in multiple strips of 5 metre lengths
- Clean removal adhesive

Part number	Size	Units
77 11 433 737	13mm x 50m	1
77 11 433 738	19mm x 35m	1

All information correct at time of printing. Pictures for illustration purpose only. Publication date May 2011.

Ultimate Primer Tape

The efficient way to mask vehicles for priming.

A fast and effective way to mask door apertures and other vehicle gaps making previously unmaskable gaps simple and easy to protect.

- Dramatically reduces process times.
- Seals and protects from overspray.
- Precise fingertip adjustment.
- Easy to apply – Self locating.
- No primer build up on panel edges.
- Reduces material use.

Part number	Size	Units
77 11 433 740	15mm x 35m	1

Ultimate Transition Tape

Unique way to achieve seamless transition from old to new.

The fast and sure way to mask swage lines and panel edges to avoid hard paint edges. Eliminates unnecessary rework due to unwanted paint edges.

- Seamless blending from old to new paintwork.
- Ideal for body swage lines.
- No paint edges.
- Non stretch.
- Just one size for every occasion.

Part number	Size	Units
77 11 433 739	20mm x 5m	10
